SEGREDOS OCULTOS

1

Prefabricated Strongroom

Grade I

Description
S. Ocultos Prefabricated Strongrooms (PSR) are constructed from wall-, roof- and floor panels welded together. The panels are produced with modern production technique and constructed with a new barrier material.
The design of the PSR can easily be adopted to the conditions at site. S. Ocultos PSR is assembled in a short time and can easily be dismantled and used again.
The assembling design can be made in ether screwed or welded version.

Burglary protection
S. Ocultos Prefabricated Strongroom in Grade I is certified in accordance with the European standard EN-1143-1.

Finish
Light grey RAL 7035
